

# SUPERVISORY BOARD CHAIRMAN'S REPORT

57

44 | Corporate governance

50 | Internal control

# SUPERVISORY BOARD CHAIRMAN'S REPORT

Pursuant to Article L. 225-68 of the Commercial Code, we remind you of Somfy SA's corporate governance principles and inform you of developments and procedures established in relation to internal control and risk management.

The company's Financial and Legal Departments and its Internal Audit Department are the major contributors to the preparation of this report under the authority of the Chairman of the Supervisory Board.

This report was forwarded to the Statutory Auditors, submitted to the Audit Committee of 28 February 2014 for review, and to the Supervisory Board on 5 March 2014 for approval.

## Corporate governance

### Corporate governance code

Somfy SA refers to the Middlednext corporate governance code for listed companies issued in December 2009 (the Middlednext Code hereafter), available at:

[www.middlednext.com](http://www.middlednext.com)

The Supervisory Board meeting of 27 February 2012 decided to adopt the Middlednext Code in place of the AFEP/MEDEF corporate governance code for listed companies, as it considered that its recommendations and guidelines were better suited to the company, particularly in view of its share ownership structure, with family shareholders owning more than 50% of the share capital and voting rights.

### Composition of corporate governance bodies

Somfy SA is a French limited company (société anonyme), whose organisation is based on the "Management Board and Supervisory Board" formula, which entrusts company management to the former under supervision of the latter.

### Composition of the Management Board

Management Board members are appointed by the Supervisory Board in accordance with legal provisions.

The terms of office of the Chairman and the members of the Management Board expired on 26 November 2013. The Supervisory Board met on 15 November 2013 to reappoint the members of the Management Board for a term of four years, with effect from 27 November 2013.

Thus at 31 December 2013, Paul Georges Despature chaired the Management Board.

Wilfrid Le Naour – Chief Executive Officer of Somfy Participations and Jean-Philippe Demaël – Chief Executive Officer of Somfy Activities, were members of the Management Board.

## Composition of the Supervisory Board

On expiry of his term of office as member of the Supervisory Board at the end of the Annual General Meeting of 16 May 2013, Jean-Bernard Guillebert did not wish to be reappointed and the Supervisory Board of Somfy SA comprises the following seven members:

Name	Position	Date appointed / renewed	Date term ends
Michel Rollier*	Chairman	(Member of the Supervisory Board: 15 May 2012 / Chairman of the Supervisory Board: 16 May 2013)	2018 AGM
Victor Despature	Vice-Chairman	16 May 2013	2017 AGM
Paule Cellard*	Member	16 May 2013	2017 AGM
Jean Despature	Member	16 May 2013	2017 AGM
Xavier Leurent	Member	16 May 2013	2015 AGM
Anthony Stahl	Member	16 May 2013	2015 AGM
Valérie Pilcer*	Member	18 May 2011	2017 AGM

\* Independent member according to the definition of independence adopted by the company.

The list of other appointments held outside Somfy SA is included in the Management Board report in accordance with disclosures required by Article L. 225-102-1 of the Commercial Code.

### Male and female representation on the Board

The Board consists of seven members, including two women, and complies with minimum female representation on the Board as required by current legislation. The company intends to continue to comply with subsequent application requirements introduced by the Law of 17 January 2011 relating to the equal representation of men and women in governance bodies. The table below summarises the changes in the composition of the Board that have taken place during the last financial year and until the date of preparation of this document (31 January 2014):

Name of members of the Board	Nature of the change	Effective date	Diversification in the composition of the Board
Jean-Bernard Guillebert	Non-renewal	16 May 2013	–
Michel Rollier	Appointment as Chairman of the Board	16 May 2013	–
Paule Cellard	Appointment as member of the Supervisory Board	16 May 2013	Diversification of the Board in terms of female membership and international experience
Jean Despature	Renewal	16 May 2013	–
Victor Despature	Renewal	16 May 2013	–
Xavier Leurent	Renewal	16 May 2013	–
Anthony Stahl	Renewal	16 May 2013	–

## Conditions of preparation and organisation of the Supervisory Board's work

The Supervisory Board performs its control mission in accordance with the conditions prescribed by law.

A Chairman and a Vice-Chairman are elected from among its members, and they may call meetings of the Supervisory Board by any means, including verbally.

### Independence of the members of the Supervisory Board

A group of family shareholders holds the majority stake in Somfy SA.

As provided by the Middelnext framework, the Board has assessed the independence of its members.

Based on the independence criteria suggested by the Middelnext framework, the Supervisory Board notes that, to date, an independent member of the Board is a member who has no relationship of any nature whatsoever with Somfy SA or its management, or with a company consolidated by the Somfy Group, that may affect his/her freedom of judgement, and who meets the following criteria:

- Is not and has not been an employee and does not hold and has not held a general management position within

Somfy SA or any other Group company during the last three years;

- Is not a significant customer, supplier or banker of Somfy SA or its Group, or for which Somfy SA or its Group represents a significant share of his/her business activity;
- Is not a significant shareholder of Somfy SA;
- Is not closely related to a Director or major shareholder;
- Has not been a statutory auditor of Somfy SA over the past three years.

In light of these criteria, the Supervisory Board considered that Paule Cellard, Valérie Pilcer, and Michel Rollier qualified as independent members. The Board noted that there was no business relationship between the independent members and Somfy SA.

Paule Cellard provides Somfy Group with international experience in the fields of finance and risk monitoring and compliance. Valérie Pilcer provides Somfy Group with experience in the fields of finance and risk monitoring. Michel Rollier provides Somfy Group with industrial and international experience gained with the Michelin Group particularly in the fields of finance, strategy and marketing. The other members of the Supervisory Board are members of the family and therefore have a family code of ethics, which reinforces the shared respect for the shareholders' agreement. Moreover, their own individual substantial investment naturally motivates their long-term commitment to the Group, their aim being the creation of value on a sustainable basis for all the stakeholders of Somfy SA.

Thus, in accordance with the criteria of the Middelnext Code, the following are considered independent members:

Independent members of the Board	Michel Rollier	Paule Cellard	Valérie Pilcer	Explanation in the event of non-compliance
Is not and has not been an employee and does not hold and has not held a general management position within Somfy SA or any other Group company during the last three years	X	X	X	
Is not a significant customer, supplier or banker of Somfy SA or its Group, or for which Somfy SA or its Group represents a significant share of his/her business activity*	X	X	X	
Is not a significant shareholder of Somfy SA	X	X	X	
Is not closely related to a Director or major shareholder	X	X	X	
Has not been a statutory auditor of Somfy SA over the past three years	X	X	X	
Conclusion on the independence	Independent	Independent	Independent	

\* Where necessary, the materiality of relations may be debated and the assessment criteria clarified at a Board meeting.

## Operation of the Supervisory Board

The company bylaws define and specify the terms and conditions governing the composition of the Supervisory Board. The main provisions are the following:

Supervisory Board members, the number of which can never fall below the legal threshold nor exceed the legal limit, are appointed in accordance with the conditions specified by law for a term of office of four years. By exception and solely to enable the implementation or maintenance of staggered terms of office, the Ordinary General Meeting may appoint one or more members of the Supervisory Board for a term of one, two or three years.

All outgoing Supervisory Board members may be reappointed.

The term of office of a Supervisory Board member ceases at the end of the Shareholders' Ordinary General Meeting called to approve the financial statements for the financial year just ended and held in the year that the term of office of the said member of the Supervisory Board expires.

No one may be appointed as a member of the Supervisory Board, if, being over seventy five years old, his/her appointment leads to over a third of the members of the Supervisory Board being over that age.

The Supervisory Board meets at least once quarterly on an agenda drafted by its Chairman. It met six times during 2013 and the rate of attendance was 100%.

At each ordinary meeting, the Management Board presents a report on the operations and results of the Group and its major subsidiaries for the quarter just ended. A detailed income statement with commentary is presented by the Management Board for every half-year and annual closing. In addition, the Supervisory Board receives a monthly sales report.

Within 90 days following the end of each financial year, parent company and consolidated financial statements approved by the Management Board are sent to the Supervisory Board for review.

The Board then presents its observations on the report of the Management Board as well as on the financial statements to the General Meeting.

For the approval of the half-year financial statements, only the consolidated financial statements are prepared and submitted within this deadline.

The Chairman of the Supervisory Board also benefits from monthly meetings with the Chairman of the Management Board on the current operations of the Group.

The Supervisory Board asks the Management Board and Management to provide any information or analysis they deem necessary or a presentation on any specific subject. In accordance with the law, the Supervisory Board provides guidelines to the Management Board so that commitments to deposits, sureties or guarantees are validly provided by the company. The authorisation of the Board is required in every case where a commitment does not meet these conditions.

The rules of operation of the Board are specified in the Board's internal regulations, which are available on the company's website.

The Board's internal regulations also include provisions aimed at preventing and managing conflicts of interest.

In this respect, internal regulations specify that should a situation arise where there appears to be a conflict of interest between corporate and direct or indirect personal interests, or the interests of the shareholder or group of shareholders he/she represents, or which may be perceived as such, the Board member concerned must:

- Inform the Board of this conflict of interest as soon as he/she becomes aware of it;
- Take all appropriate action in relation to exercising his/her term of office.

Depending on the case, he/she therefore shall:

- Abstain from voting on the relevant deliberation;
- Refrain from attending Board meetings during the period he/she is in a position of conflict of interest;
- Resign from his/her duties as a member of the Board.

The Board member may be held liable for failing to comply with these abstention and non-attendance rules.

Furthermore, the Chairman of the Board is not obliged to disclose information or documentation relating to the matter in dispute to member(s) whom he has strong grounds of suspecting are in a position of conflict of interest within the meaning of this paragraph, and will inform the Supervisory Board of this act of non-disclosure.

The principal subjects discussed at meetings of the Supervisory Board during the year were the following:

- Self-assessment by Board members on the operation of the Board and the preparation of its work, by way of a questionnaire forwarded to each member,
- Revision of the Code of Conduct of the Supervisory Board,
- Update of the risk mapping carried out in 2011,
- EURO Project with assistance from Deloitte,
- Regular updates of ongoing tax, social security and customs duties assessments within the Group,
- Review of the policy regarding equality in the workplace and equal pay.

### For Somfy Activities:

- Budget and key development areas,
- Quarterly highlights by brand and operation,
- Presentation of acquisition and disposal projects,
- Detailed update on the Group's activities in China, in particular Dooya,
- Change in the structure of relations with Garen in Brazil and planned acquisition of the usufruct of the Garen securities,
- Majority investment in Giga Security in Brazil,
- Discovery report and first priorities of the new Head of the Home & Building Division,
- Focus on Human Resources: assessment and key issues by the Group Head of Human Resources,

- “Acting simply” project and its extensions within the Group presented by two members of the Executive Committee.

#### For Somfy Participations:

- Quarterly highlights by shareholding,
- Presentation of planned equity investments,
- Presentation of the updated business plan, the strategy and performance indicators,
- Detailed update on FAAC.

### Committees established by the Supervisory Board

#### Audit Committee

With regard to the Audit Committee, the company applies the recommendations of the AMF's working group chaired by Mr Poupart Lafarge at the Audit Committee meeting of 22 July 2010. The recommendations in respect of the composition and chairmanship of the Committee, the competence of its members and definitions of their independence, the operation (information, evaluation and reporting on the work undertaken), as well as the recommendations relating to the execution of its legal responsibilities have been followed.

The follow-up on the effectiveness of the internal control systems has also been carried out.

In 2013, as part of its assignment relating to risks, the Audit Committee monitored risks and updated the risk mapping at an extraordinary meeting of the Audit Committee, during which the Internal Audit Officer presented the relevant information.

Following the expiry of Jean-Bernard Guillebert's term of office as member of the Supervisory Board with effect from 16 May 2013 and as a result of his non-renewal, the Audit Committee currently comprises three members: Victor Despature, Committee Chairman, Paule Cellard and Valérie Pilcer. Paule Cellard and Valérie Pilcer are independent members in accordance with the aforementioned criteria.

Victor Despature has accounting expertise. He has been a Chartered Accountant and an Auditor from 1983 to 2004. Since then, he served as the General Manager of a major family-owned group from 2002 to 2006 and as the Chairman of the Legal Committee from 2002 to 2008. He is currently Chairman of the Supervisory Board since 2012 and member of the Remuneration Committee since 2002. He has also been managing a medium-sized company in the aeronautic sub-contracting sector since 2002.

Valérie Pilcer, a graduate of the Paris École des Mines, was entrusted with various operational management duties by Société Générale from 1987, in both the international financial market division and in the Group Risk Management Department. She joined the Oddo Group in 2008 as Chief Risk Officer and then independent consulting company Pilcer & Associés in 2011. In 2012, she joined the MACIF Group as Head of Risk Management and the OFI Group's Executive Committee as Director of Innovation, methods

and processes. Her expertise also extends to the financial field, with substantial experience in risk management.

Paule Cellard, graduate of ESC Paris (Business School) and with a master's degree from the Paris Assas Law School, has held various operational roles in Corporate and Investment Banking, notably as Chief Executive Officer of Indosuez Private Banking Services from 2006 to 2009, then Global Head of Compliance at Crédit Agricole Corporate and Investment Bank until 2012. From November 2012, she has been a Director and member of the Audit Committee of Crédit Agricole Private Banking Luxembourg and has founded the consulting firm KLEFI CONSEIL. She has expertise in the financial field and strong experience in risk management.

The Committee's mission is to monitor the preparation of the financial information and the efficiency of internal control and risk management systems. It is also informed of due diligence carried out by the Statutory Auditors in their legal assignment to audit the parent company and consolidated financial statements, ensures the latter's independence and is involved in their selection.

The Audit Committee supervises the work of Internal Audit and approves the annual audit plan. It proposes, directs and ensures the follow-up of Internal Audit assignments. Since its creation, it has met at each half-year and year-end balance sheet date.

During the 2013 financial year, the Audit Committee met on five occasions with all members in attendance, with the exception of one absence at one meeting.

During the various Audit Committee meetings, the Chief Financial Officer presented the financial position of the Group, the accounting options adopted, the risk exposure and significant off-balance sheet commitments; Internal Audit presented the results of audits carried out, the annual audit plan and the results of the risk mapping update.

Pursuant to Article L. 823-16 of the Commercial Code, the Statutory Auditors presented their general work programme as well as the various tests they carried out; the changes that they felt should be made to the financial statements or other accounting documents before their approval, along with any relevant comments about the valuation methods used in their preparation; possible irregularities and errors discovered and the findings leading to the above observations and corrections on the results of the period compared to those of the previous period.

In addition, every year the Statutory Auditors communicate to the Audit Committee a declaration of independence and an update of the information described in Article L. 820-3 detailing the services carried out by the members of the network to which the Statutory Auditors are affiliated, as well as the services carried out in respect of due diligence directly related to the assignment.

With regard to the work methods: pursuant to the recommendations of the AMF, a minimum time period for the examination of the financial statements was complied with to enable the Audit Committee to avail of the option of using external experts, as well as interviewing the Chief

Financial Officer, the Statutory Auditors and the Internal Audit Officer.

Minutes of each Audit Committee meeting are provided to the Supervisory Board so that it is aware of matters discussed.

### Remuneration Committee

Following the expiry of Jean-Bernard Guillebert's term of office as member of the Supervisory Board with effect from 16 May 2013 and as result of its non-renewal, the Remuneration Committee currently comprises the following two members: Michel Rollier, Committee Chairman (independent member) and Victor Despature. Its mission is to submit proposals to the Supervisory Board, in particular in respect of the amount and calculation of Director remuneration and to provide advice concerning the amount of attendance fees.

At least once a year, the Committee calls on a firm specialised in the subject of senior executive remuneration, which provides advice on the practices that are generally applied in companies of a comparable size.

During the year just ended, it met three times. The rate of attendance by the members was 100%.

The members of the Remuneration Committee report verbally to the Board on their work and on the opinions they have issued, thus helping the Board to prepare and make decisions in terms of Directors' remuneration.

## Remuneration and benefits of senior executives

### Principles and rules drawn up by the Supervisory Board to determine the remuneration and all benefits granted to senior executives

Directors' remuneration, which is detailed in the Management Board report, is proposed by the Remuneration Committee. It is revised each year on the basis of expert advice and is in line with the market.

#### Remuneration of members of the Supervisory Board

The General Meeting sets the overall amount of attendance fees.

The Supervisory Board members share the said fees on a pro rata basis according to their attendance at meetings of the Board and the Audit and Remuneration Committees: € 1,100 per member per meeting of the Supervisory Board, € 1,600 per member per meeting of the Audit Committee and € 1,300 per member per meeting of the Remuneration Committee.

The Chairman of the Supervisory Board received a specific fixed remuneration that was last revised by the Board meeting of 16 May 2013.

### Remuneration of senior executives

At 31 December 2013, the remuneration of the members of the Management Board comprised a fixed part and a variable part. These amounts are reviewed annually.

The variable part is based on the achievement of objectives that take account of quantitative criteria specific to the scope of operations covered:

For the Chief Executive Officer of Somfy Activities, this includes profit growth, measured by the average growth in COR (Current Operating Result) over two years; the profitability of capital used, measured by the average level of ROCE (Return On Capital Employed) over two years; and lastly, business development, measured by sales growth and by its differential with the sales growth of a range of benchmarks consisting of nine companies deemed to be comparable.

For the Chief Executive Officer of Somfy Participations, this includes growth in the net asset value of investments; the coefficient of achievement of annual budgets; and lastly, the improvement in the financial position of the Somfy Participations division.

For the Chairman of the Management Board, this includes the performance of both divisions, Somfy Activities and Somfy Participations, weighted by the contribution of each division to the Group's net profit. An additional specific criterion measures the level of Group debt.

This process is accompanied by qualitative criteria. For confidentiality reasons the expected level of achievement of quantitative criteria, as well as the qualitative criteria, which are predetermined, are not publicly disclosed.

Other benefits, approved by the Supervisory Board, comprise:

- The potential allocation of stock options or performance-based shares, which is the subject of a special report as prescribed by Articles L. 225-184 and L. 225-197-4 of the Commercial Code. During the year just ended, no stock option or performance-based share plans were set up;
- A so-called "Article 39" supplementary retirement scheme for members of the Management Board, senior managers and senior executives of the Group, set up by CMC SARL. Member of the Management Board concerned: Jean-Philippe Demaël, potential beneficiary of a retirement scheme;
- Benefits in kind consisting of the use of a company car, as well as profit sharing, employee shareholding and contributions to the Group savings scheme in force within CMC SARL for holders of an employment contract. Members of the Management Board concerned: Jean-Philippe Demaël and Wilfrid Le Naour. Their value is separately disclosed in the Management Board report, just as the remuneration mentioned in this report is disclosed in its entirety and includes the salaries paid under employment contracts.

The position of the Chairman of the Management Board is different, as he does not benefit from either stock options

or performance-based shares. He is only remunerated in his capacity as Board member, without any other particular benefits, and has no employment contract.

### Conditions of shareholders' participation in General Meetings

The bylaws allow for the following arrangements:

- All shareholders have a right to attend General Meetings and participate in their deliberations, in a personal capacity or by proxy;
- They may vote remotely. If the Management Board or Supervisory Board provides for this at the time of the notice of the meeting, all shareholders may also participate in General Meetings by video-conference or by any communication means that enable their identification according to the terms and conditions set out by the law and regulations and that are specified in the notice of the meeting: the shareholder will, in this case, be deemed to be present for the calculation of quorum and majority;
- The right to participate in Meetings is contingent upon the shareholder providing proof of his/her identity and the registration of the securities in his/her name (or the name of the intermediary recorded on their behalf if he/she resides abroad) at midnight Paris time on the third working day preceding the meeting, either in a nominative account or in the records of bearer shares held by an authorised intermediary, and this in one of the places mentioned in the notice of the meeting. As for bearer shares, the authorised intermediary must provide a certificate of shareholding;
- The attendance of the shareholder cancels all proxy or remote voting.

### Elements liable to have an impact in the event of a public offering

The disclosures referred to by Article L. 225-100-3 of the Commercial Code relating to elements liable to have an impact in the event of a public offering are published in the paragraph entitled "Elements liable to have an impact in the event of a public offering" of the Management report prepared by the Management Board in respect of the financial year ended 31 December 2013.

## Internal control

### Internal control and risk management procedures implemented by the company

#### Company objectives in respect of internal control

The internal control function, inspired in practical terms by the AMF framework available at [www.amf-france.org](http://www.amf-france.org), has the following purposes:

- To ensure that management action and the completion of transactions as well as the behaviour of personnel is in line with the framework defined by the Management Board under the control of the Supervisory Board in conditions defined by the bylaws, applicable laws and regulations, and by the internal values, standards and rules of the company;
- To verify that the accounting, financial and management information reported to the Management Board and Supervisory Board or to Committees formed within them, fairly reflects the operations and position of the company by checking their reliability, traceability and availability;
- To prevent and control the risks arising from the business and the risk of errors or fraud, particularly in the accounting and financial areas;
- To secure the property, plant and equipment and intangible assets.

Thus, it strives to ensure: a) compliance with laws and regulations; b) the application of instructions and directions set by General Management or the Management Board; c) the proper operation of the internal processes of the company, notably those concerning the safeguarding of its assets; d) the reliability of financial information.

It cannot provide an absolute guarantee against human error.

As far as Somfy Participations is concerned, it should be noted that the companies in which Somfy SA has invested as part of LBO projects and where it holds a majority shareholding are NMP SAS (Zurflüh-Feller) and Financière Nouveau Monde SA (Sirem).

With regard to financial investments, the attention given by Somfy SA to these companies relates particularly to their financial statements, in particular compliance with their banking covenants as well as a follow-up of their strategies. In the event that areas of progress are identified in other domains by the Management of the company or Somfy SA, the latter proposes to the company concerned the resources or contacts to contribute to its development. In this respect, Internal Audit may form part of the resources provided.

As a result of the above, the developments that follow relate virtually exclusively to Somfy Activities.

## Internal control structures

### Supervisory Board

Under French law, this is the body that controls the management of the company carried out by the Management Board.

### Internal Audit

Under the supervision of the Audit Committee, the Internal Audit Department reports to the Chairman of the Management Board, and by delegation to the Group's Chief Financial Officer.

The Department, comprising the Internal Audit Officer and the equivalent of 2.5 auditors, carries out audits that evaluate the correct application of accounting principles, the organisation and the systems put in place within the entity subject to audit.

An annual audit plan, prepared together with the Management of Somfy Group, is approved by the Management Board and then validated by the Audit Committee. This audit plan is in particular based on an assessment of the level of risk of each entity and the significance of areas to be covered by an audit. The assignments included in the audit plan provide an independent assessment of the efficiency of the system of internal control in each entity.

Where appropriate, the principal weaknesses identified in internal control are reported and recommendations are issued. A follow-up of the implementation of recommendations is made each year. A report is presented to the Management Board and to the Audit Committee.

In addition, urgent assignments that were not provided for in the audit plan may be carried out during the year at the request of the Management Board or the Audit Committee. Twice a year, the Internal Audit Officer presents a report on the activities of the Department to the Management Board and to the Audit Committee.

### Key elements of internal control procedures

The processes and organisation described hereafter were implemented by the Management Board, as internal control falls within its jurisdiction.

#### Description of internal control procedures in relation to the preparation of accounting and financial information

##### Strategic, budgetary and reporting processes

The preparation of the budget is part of an annual strategic process involving all the Activities, Business Areas and Business Units as well as the Divisions, which define their own key objectives, in line with the strategic guidelines set by General Management.

The overall budget is prepared as part of an iterative process involving all Group players. It is the result of the consolidation of local budgets.

After approval by the General Management of the Group, every manager becomes responsible for meeting his/her own budget.

The measurement of the achievement of objectives set out in the budgets is carried out through a system of matrix reporting on a monthly and quarterly basis, which enables results to be produced on several axes (Business Area, Business Unit, and Activity). It comprises the standard financial data: operating accounts and balance sheet indicators, and non-financial performance indicators.

Reporting is completed by strategic reports and quarterly updates of forecast sales and profit for the current year. These measurements enable a follow-up of the achievement of objectives and provide corrective actions on a matrix basis and at all levels of responsibility (consolidation, Business Areas, Business Units, Activities, Legal Companies, Departments and Services).

In addition, three three-year plans, in line with Group strategy and revised annually, are overseen by Management. They include:

- A product master plan that relates to the development of the product offering,
- An industrial and logistics master plan for production facilities,
- A master plan for information systems.

#### Preparation of financial statements

The Somfy Group has defined a unique and common system for the recording of accounting and financial information.

It resulted in the definition and implementation within all subsidiaries of a Group chart of accounts, as well as the definition and implementation of the main management procedures (inventories, non-current assets, trade receivables, etc.), which are formalised in the Group Procedure Manual relayed through and updated on the Group's 'Teepee' intranet.

Furthermore, the Group is pursuing its policy of rolling out common software and a joint ERP.

The proper application of the chart of accounts, procedures and reporting reliability is monitored by visits to subsidiaries at least annually, planned by head office Accounting and Controlling Departments, within the context of year-end and half-year closing. It is also verified during the budget preparation and monthly reporting processes.

The Group team responsible for the development and control of financial statements comprises the Group Financial Department and the Financial Department of Somfy Activities, represented by its manager, and comprising:

- The consolidation team,
- The central financial control team.

This team relies on financial controllers, based in each Business Area, reporting to the Group in its ten geographical areas.

In addition, each of the Activities benefits from a dedicated financial controller.

The Group endeavours to lead this network via international meetings and on-going training of accountants and financial controllers.

Particular care is taken with risk analysis, through a review of asset provisions and provisions for liabilities and charges, as well as off-balance sheet commitments.

At each year-end, inventories are verified either through a complete physical stock-take or by a rolling physical stock-taking procedure.

Trade receivables are the subject of credit risk analyses with respect to the measurement of provisions. In addition, the company hedges the majority of its risk by entering into customer credit insurance contracts, both in France and abroad.

Intragroup purchases, sales and balance sheet items are confirmed monthly.

Inventory amounts originating from the Group are determined in all entities in order to eliminate internal profit margins on inventories.

A pre-closing meeting is organised each half-year with the Legal Department to identify all liabilities and possible or stated litigation and to calculate, with reference to the progress of cases, corresponding provisions for liabilities and charges.

The review of various contracts, deposits, sureties and guarantees also serves to identify off-balance sheet commitments.

The consolidation packages, including: balance sheet, income statement, cash flow tables and related data, are then sent to the Consolidation Department according to a predefined planning schedule.

### Financial statements control

The Consolidation Department, after verifying the completeness of financial information, the proper application of closing procedures and restatements, performing the intragroup account reconciliations and verifying the net equity justification, performs financial statement consolidation using dedicated software.

The consolidated financial statements are prepared in accordance with IFRS. In addition, accounting options selected are presented to and approved by the Audit Committee.

### Financial communication

Following their approval by the Supervisory Board, the half-year and full-year financial statements are presented to the financial community under the auspices of the SFAF (French financial analyst society) and published in a report posted on the financial issuer's website ([www.somfyfinance.com](http://www.somfyfinance.com)) as well as on a regulatory business publishing network ([www.lesechos-comfi.fr](http://www.lesechos-comfi.fr)).

The other disclosures required by the Transparency Directive, in particular quarterly information and reports on internal control and corporate governance are also posted on these two websites. Relevant information relating to the company's business activities is presented to the Audit Committee.

## IT systems

The BaaN integrated management package is installed in most distribution subsidiaries, excluding Asia, where ERP Accpac has been rolled out in the majority of cases.

For the companies that have an ERP (BaaN or Accpac) installed, standard parameters are included (comprising a chart of accounts, analytical follow-up and procedures).

Completion of the budget, monthly reporting, margin analysis by product family and legal consolidation are all carried out on the same platform (Hyperion), which improves uniformity and facilitates the analysis of information.

The BaaN Manufacturing module has been installed at the Group's main production sites (Cluses, Gray, Zriba, Bologna) which means systems can operate with the same information system integrated with logistics and finance. In 2013, BaaN Manufacturing was programmed to integrate the operations of the new factory built in Poland.

Furthermore, the various Group development centres use the CrossRoads tool, a unique data management system for the development of products throughout their life cycle. It contributes to the efficiency of development processes and to the improvement of product quality.

Lastly, the Ariane tool, which helps manage and monitor general expenses liabilities, was also rolled out at Somfy SAS, SITEM and Simu.

### Internal control monitoring

An Internal Control Department is in place and has the following objectives:

- The maintenance of reliable internal control within the Group: ensuring statutory financial and reporting data is secure and reliable (risk identification, definition of control procedures), validating the Group's accounting and management methods, while ensuring these can be accommodated by IT systems;
- Internal Audit assignment follow-up: review of Internal Audit reports, identification of action plans to be implemented, action plan follow-ups;
- The development of a plan to make half-year closings more secure: including a schedule for visiting subsidiaries, identification of matters requiring attention, review of visit reports and action plan follow-up.

Members of Internal Control meet once a month to discuss the latest audit reports issued and other matters, such as year-end visits or training programmes to be provided to financial controllers.

The monitoring of the internal control ensuring better knowledge, communication and follow-up of risks and associated controls, is initiated through the following dedicated tools:

- A self-assessment tool for subsidiaries through which Internal Audit may launch monitoring programmes on specific areas;
- A software tool dedicated to the follow-up of recommendations, which more specifically allows Internal Audit to centralise all recommendations resulting

from their audits, the entities audited to capture their corresponding action plans, and the Group's Internal Control Department to follow their implementation.

The use of all these resources is closely monitored by the Audit Committee, which is regularly informed of the progress achieved and the results obtained.

A biannual reporting has been established for the benefit of the Executive Committee of Somfy Activities and the managers of all subsidiaries in relation to the progress of action plans and the resolution of weaknesses that have been identified.

Certain improvements are directly addressed by entities at a local level, while others are looked into centrally by the Internal Control Department and/or in collaboration with the Group's IT Department.

Lastly, the Internal Control Department is also responsible for the central monitoring of risks and the update of risk mapping, in collaboration with the Internal Audit Department specifically in relation to the methodology.

### Mapping of risks

Group management firmly believes that risk management and control contributes to:

- Creating and preserving the value, assets and reputation of the company;
- Ensuring the company's decision-making and processes to facilitate the achievement of targets;
- Encouraging that actions are consistent with the company's values;
- Motivating company staff by setting out a common approach to major risks.

The mapping of Group risks is updated every year. A link exists between the risks included in this analysis and the Internal Audit plan, where relevant.

In 2013, the method used to identify operational risks changed. A thought process has also been initiated with a view to integrating the operational risk update process into the company's annual cycles and thereby involve a larger number of persons on a global level.

Strategic risks are examined during the bi-annual process of the Group's strategic review.

The results of this risk evaluation are presented each year to the Executive Committee, as well as to the Management Board and the Audit Committee.

### Treasury Committee / Group Cash Management

The Group Treasury Department reports to the Group's Chief Financial Officer.

The Group Treasury Department is responsible for carrying out transactions in cash management, financing and managing risks of a financial or banking nature related to the Group's operations.

It has a duty to warn the Group's Chief Financial Officer, the Treasury Committee or the Management Board of developments in the relevant markets and the fair assessment of risks.

A Treasury Committee meeting is held each month, chaired by the Group's Chief Financial Officer, to review:

- The business and financial environment,
- Deposits,
- Funding,
- The Group's net debt,
- Off-balance sheet banking commitments,
- Foreign exchange positions,
- The Group's cash and debt positions (current and forecast),
- The Group's net financial income/(expense) (twice annually).

This Committee comprises:

- The Chief Financial Officer of Somfy Group,
- The Administrative and Financial Manager of Somfy Activities,
- The Chief Financial Officer of Somfy Participations,
- The Financial Manager of holding companies,
- The Group Treasurer.

The Chairman of the Management Board and the two Chief Executive Officers are ex-officio members and have a standing invitation to Committee meetings.

The role of the Treasury Committee is twofold:

- Strategic: to define the overall policy in terms of Group Cash Management, financing, interest and exchange rate and deposit risk management. They also include the follow-up of Group subsidiaries' equity balance sheet items;
- Operational: to guarantee the regular monitoring of Group Cash Management. These are detailed in a monthly trend chart.

The rules and procedures relating to Somfy Group's Cash Management have been formalised in the Cash Management Charter, which covers the following:

- Ethics,
- Liquidity/exchange rate/interest rate risk,
- Deposit of excess cash,
- Counterparty risk,
- Governance.

This charter was subject to a quality review in the second half of 2013.

A Group Treasury Charter was also introduced on 1 November 2013 to define best practices and list in a single document the guidelines that ensure the secure, economical and efficient management of financing and deposit operations, and more generally of cash management within the Somfy Group.

This Group Treasury Charter is applicable to all subsidiaries controlled directly or indirectly by Somfy SA and specifies their roles and responsibilities regarding the management of their financing, deposits, banking flows and more broadly speaking their cash management transactions.

Lastly, a foreign exchange management and reporting tool has been implemented (TITAN, published by 3V Finance).

### Accreditations and quality procedures

The Somfy Group has been implementing an approach to Quality Management by following ISO 9001 processes since 1995.

Companies that are currently ISO 9001-certified by Lloyd Register Quality Assurance (LRQA), or by other local organisations, are Somfy SAS, Simu SAS, WAY (merger of Asa and Mingardi), SITEM, Harmonic, Somfy GmbH, Somfy BV and BFT SpA Schio.

These companies represent the vast majority of the operations consolidated by the Group.

The whole personnel of these companies are thus involved in this process, including the R&D Department, as well as the Purchasing, Manufacturing, Production, Sales and Logistics Departments.

Internal quality audits are implemented in accordance with an annual audit plan, defined according to the company's strategic priorities and in a manner so as to review the risks inherent in operational processes. Corrective or preventive actions are managed within each operating or support department.

The list of operational and support processes falling within the scope of application of Quality Management, as well as their indicators, reference documents and monitoring committees, are defined in the company's quality manual. Process control is implemented through compliance with the requirements specified in the various parts of the quality framework (guidelines, procedures, departmental methodological guides, etc.) and the continuous improvement principle applied to each of them.

The Quality approach is a key area of the Group's strategy and the Management of the company is committed to its rollout and monitoring.

### Risk coverage / Insurance

The Group risk prevention and protection policy is determined by Corporate Services, in partnership with its brokers and insurers and in collaboration with the Activities. The vast majority of facilities is insured by Group policies with the objective of guaranteeing adequate coverage of risks at the best market conditions. These risks specifically include direct risks (fire, theft, etc.), loss of profit, general civil liability (including Directors' civil liability) and transport of goods. Other facilities are covered by local insurance policies.

### Projects completed and in progress

Projects carried out in 2013 relating to internal control and risk management included:

- Rolling out the E-Learning module designed to provide extensive and simple training for all Somfy Activities Controllers using the Enablon tool, designed to centralise audit tasks and monitor action plans. This tool also feeds basic data to the internal control report communicated twice a year to the General Management and the Executive Committee;

- Mapping existing practices and procedures relating to cash management and banking relations for all entities of Somfy Activities, in order to guarantee that potential risks are known and treated properly. Following this analysis, action plans have been implemented by the Group's Finance Department.

The Audit Committee closely monitored the progress of these projects throughout the year.

### The Chairman of the Supervisory Board
